Environmental Practice National Certificate: Environmental Practice (NQF 2)

Programme Details

This qualification is the second in a learning pathway for practitioners in the field of environmental science, environmental management and waste management. This series of qualifications will equip practitioners with the skills, knowledge and values to contribute towards the wise and effective use and management of our built environment, natural resources and ecological systems.

This programme is targeted at learners who need to operate and maintain machinery and equipment and use resources in an environmentally responsible manner; and apply basic principles and tools of environmental practice to avoid, minimise or remedy negative environmental impacts.

	NQF Level	2
	Credits	128
	Estimated Duration	25 Days
	SAQA ID	49605
